

DC-10

A Few Inches Makes a Big Difference

DC-10

BIG BENEFITS IN A SMALL PACKAGE

The DC-10 is the perfect addition to most trucks adding more than 20 cu ft of space. This model provides ground access from the back wall, which is excellent for tractor or dump body configurations with room to access the back wall. This model also has a full-length stainless side fairing package to deflect wind and allows room for backlighting. You will stand out from the competition and attract more drivers to your fleet with the DC-10.

DC-10

Big Benefits in a Small Package

The DC-10 offers back wall access doors for better ground access and stop climbing in and out of your cab to get your stuff. Outside entry into the cab makes the additional space usable and handy for drivers. Changing out muddy boots for clean, dry shoes before climbing in the cab makes a big difference after a long day. Grabbing tools or safety equipment without crawling over the seats avoids slip accidents. The DC-Max construction is waterproof and insulated, keeping your clothes and equipment warm and dry. for tractors or limited frame applications such as dumps and service units. If your truck is weight sensitive, the DC-10 delivers, weighing in at under 100 lbs.; this model has a minimal impact on your working payloads.

DC-10

Options

Back wall Access Doors
Large 13" x 13"
Located on the back wall
Allow you to change out of
your muddy boots and
hang up your wet coat
before you hop in the cab

Our unique faring design lets you add lights behind the stainless for a fantastic night effect.

Stainless end cap trim

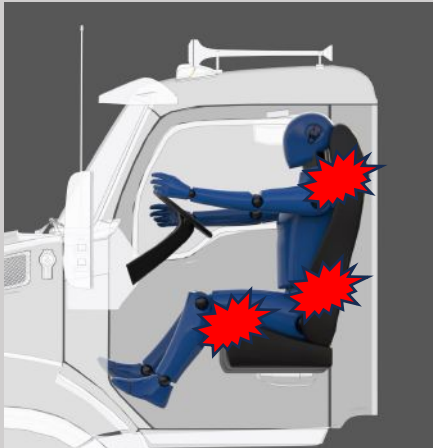

Stainless rear light bar works with side trim or side fairings.

DC-10

Enjoy The Ride

Your drivers work long hours, and their days get longer when their truck is uncomfortable. Giving your drivers more room reduces aches and pains leading to chronic health issues and attracts hard-to-find drivers to work for you.
